

ANALYSIS OF EDUCATION STANDARDS CONSULTATION – Question 9

Note:

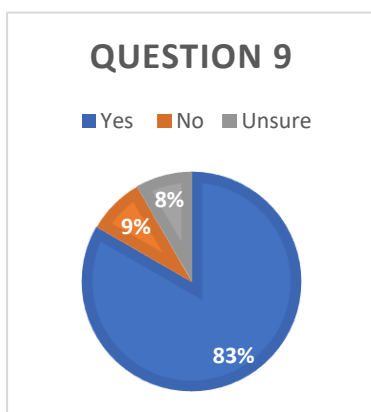

In addition to the responses analysis received below, CILEx Regulation received a further response from the Legal Services Consumer Panel on 11 April 2019. Their response covered 3 elements. A summary of their responses has been included in blue at the end of the relevant sections.

Overall response rate

CILEx Regulation received 16 responses to its consultation on changing the education standards. These responses included a response from both CILEx and CILEx Law School (the largest training provider for CILEx qualifications) and from a range of other stakeholders.

Question 9: Do you agree with the proposal to amend the exemptions policy?

This proposal was included as part of the consultation in response to specific issues raised by CILEx in relation to a number of members who had sought to rely upon law units taken within a degree which was not a qualifying law degree and was not intended to reconsider the ethos of exemptions more broadly. The change is overwhelmingly supported and therefore, CILEx Regulation intends to proceed with making this change.
